A TransferMate service

EducationBondIreland is the hassle free visa initiative supported by the Irish Government and the Irish immigration authority, the ISD (Immigration Service Delivery). The bond provides degree programme students and Chinese language students (attending an MEI listed school) with an alternative to verifying their financial status before coming to Ireland. This alternative eliminates the need for gathering invasive, time consuming financial documentation.

How it works

All the student needs to do is complete the online registration and lodge a €10,000 bond to an advised bank account. This will be held continuously through to the time the student registers in Ireland with the immigration authorities. The bond will then be cashable when the student arrives in Ireland. This ensures that the necessary funds exist and are reserved for the personal use of the student.
